

## Hamzah Khalid

London E4 6EB | [hamzahkhalid123@gmail.com](mailto:hamzahkhalid123@gmail.com) | 07841347341 | [linkedin.com/in/hamzah-khalid](https://www.linkedin.com/in/hamzah-khalid)

**Enthusiastic and hardworking individual who strives in a pressurized work environment. Excellent team worker who loves to learn and challenge them self.**

### Education

- Sep 2018-July 2021 **Beng Aeronautics and Astronautics with semester abroad (Hons)**  
University of Southampton, (exp. 1<sup>st</sup>), (First year achieved 88%)  
**Year two modules: systems design and computing, Engineering management and law, Mathematics for engineering and the environment**
- Sep 2016 – Jun 2018 **A-levels** - Heathcote sixth form  
3A's, 1B: Economics, Maths, Physics and Computing respectively

### Work experience

#### Zurich Insurance- Team member

Jul —Aug 2017

- Interpersonal skills:** Worked with a team of students to meet objectives for the company including collecting charity donations and understanding the tasks of departments in the company including risk engineers and underwriting.
- Time management:** Worked to meet time sensitive deadlines such as the planning and application of our charity project in a single day.
- Leadership:** Led a team in a group charity task to obtain donations on behalf of Zurich insurance for an associated charity.

#### Homebase- Cashier

Apr—Oct 2017

- Interpersonal skills:** Completed upwards of 500 transactions per day and offered support and advice to customers like helping them find and match paint colours.
- Time Management:** Completed my A-levels whilst working by taking advantage of my lunch break and commute to revise.
- Adaptability:** Assigned multiple jobs which included stock management and deliveries as well as cashiering. This meant adapting to the requirements of each new role in the business.
- Working under high pressure:** Completed over 500 transactions per day requiring me to be fast but thorough.

#### Maths tutoring

Aug 2016 - Aug 2018

- Interpersonal Skills:** Communicated with over 10 children of different age groups and cater to their understanding, resulting in my students achieving an average of 2 grades above predicted grades.
- Problem solving:** Solved problems presented throughout the academic year by my students and had to develop unorthodox solutions to help them understand specific topics.

### Responsibilities

#### Group Project Team Leader, Engineering Design Module

Sep 2018 – Jan 2019

- Led in a group of five to design and develop a product. Organisation and time management meant all deadlines were met with ease. Received praise for team's submission from professors and fellow students.

#### Senior Prefect

Sep 2017 – Jun 2018

- Liaised with teachers to highlight concerns from the student body. Mentored students transitioning into secondary school life to help students cope with social and academic aspects of school.

### Additional Skills and Achievements

- Programming-** Proficient at programming on python, HTML, CSS with a basic understanding of a few other programming languages including MATLAB and JavaScript.
- Gold Duke of Edinburgh-** Led a team of 6 across South Downs maintaining awareness of risks. Commended by DofE leader for being the only group of 8 to meet all goals and perform expedition as a team.

### Other interests

**Summer school in China-** Studied Quantum computing and aerospace propulsion at Sichuan university in China. Immersed myself and developed a better understanding of the Chinese culture.

**Skydiving-** An A class license holder qualified to perform solo skydives from 15000ft. Clear thinking under immense pressure is vital for a successful skydive.

**Member of Rock-Climbing society-** Developed discipline and problem-solving skills and analytical skills due to the need to analyse the holds and develop a solution and design a path to follow to reach the top.

#### Commented [MB1]: General Comments:

You have done well to fit everything on one page but it would be good to have bigger spaces between your sections as at the moment they all blur into one big section. One suggestion would be to aim for no more than 2 lines per bullet point as this will give you some extra lines. This will also ensure you are writing your points as concisely as possible.

The skills you choose to focus on in your CV should always be relevant for the role you are applying for. Make sure that you give examples of every skills listed in a job advert. This means that you should adapt your CV for every role you apply for.

**Commented [MB2]:** This section should always be tailored towards the role you are applying for – focus on 2-3 skills max. that are most relevant for the role you are applying for. Consider also adding a sentence on what you are seeking as this will also give your CV more focus.

**Commented [MB3]:** Rather than stating that this was the nature of the work experience, it would be more effective to give a specific example of how you met a deadline

**Commented [MB4]:** Again, give a specific example of how you did this

**Commented [MB5]:** Remove the bullet point from your sub-headings in this section.

It would also be worth using shorter bullet points

**Commented [MB6]:** Avoid using the 1<sup>st</sup> person in this section
